

Pupil Premium strategy statement: Perrymount School 2019-2020

INTRODUCTION:

The Pupil Premium Grant (PPG) was introduced in April 2011 to provide additional funding to schools to support children from families that are or were eligible for Free School Meals (FSM) at any time in the last six years. The funding is also given to looked after children, those that have been in care for more than six months, children adopted from care, those who left care under special guardianship, residents order or child arrangement order, and those whose parents are in the armed forces. The funding is made available to support schools to narrow the attainment gap between these children and others. National data shows that as a group, children who have been eligible for FSM at any point in time have consistently lower educational attainment than those who have never been eligible for FSM. It is up to schools to decide how the Pupil Premium is spent, but this funding should be used to support these children.

| Summary Information | | | | | | |
|------------------------|-------------------|----------------------------------|---------|-------------|----------------------|------------|

STRATEGY STATEMENT:

At Perrymount school we want all our pupils to have success for today, be prepared for tomorrow and believe that they can achieve in the future. Pupil Premium funding enables us to give extra support in a wide range of ways to overcome barriers that stand in the way of disadvantaged children achieving their aims successfully. Our core approach to supporting disadvantaged children starts as soon as they begin their educational journey. Starting points for our children when they first attend Perrymount are very low in terms of their speech, language and communication ability, thus we find providing those children with a good start to their school life and education is a must. Therefore, Pupil Premium funding is used to narrow the gap in the early years by providing speech and language intervention and high quality support, allowing children to secure the communication skills needed to access the curriculum in

subsequent years. We believe that providing targeted pastoral support to needy families both emotionally and physically is an integral part to children achieving in school and pride ourselves on the relationships that we foster with our families. All our approaches and interventions are reviewed regularly to ensure good outcomes and if deemed inadmissible are immediately changed so to ensure targeted support and progress.

Our aims this year are to:

- Increase attainment so that more pupils are at or above age-related expectations by July 2020
- Focus on developing language skills in EYFS and Year 1 in order to raise attainment and narrow the gap between children in receipt of PPG and low language attainment.
- Accelerate progress of the most disadvantaged pupils so that the gap between pupils eligible for Pupil Premium and their peers is reduced in all areas.
- Provide booster/catch up activities to support academic progress for all.
- Enhanced additional extension work for those disadvantaged children who are already attaining well that should be challenged to achieve their full potential.
- Improve the quality of provision across the board, in particular the quality of teaching in the classroom by ensuring our staff are well trained and have the time and resources to carry out their roles and ensuring there is good support in each class to rapidly address any underachievement.
- Carefully consider interventions and activities to target specific needs by additional teaching and support staff who can supply specific interventions for particular groups and buying into specific initiatives.
- Increase enjoyment of and participation in all aspects of key life by subsidising a range of activities such as trips, breakfast club and after school clubs.

| Identif | ied Barriers to Educational Achievement | Support identified and needed to address these barriers |
|---------|---|--|
| Α | Deprivation – the school serves an area that reflects social and economic challenges. | - Intervention grps |
| | Our current deprivation indicator is at 0.33: way above the national average of 0.21. | - Nursery nurse in Reception |
| | New figures TBC | - Booster grps |
| В | Social Care Needs – a high percentage of our families are supported historically or | - Targeted parental support |
| | currently by Social Care and are in need of support from school to help address their | - Subsidising of enrichment trips, afterschool clubs, school uniform |
| | needs and support their children's academic and emotional learning. | - Breakfast club |
| С | Behaviour, mental, social and wellbeing needs – a number of our families face daily | - Outreach resources |
| | challenges with parenting capacity, mental health issues and managing behaviour and | - Learning mentor |
| | emotions. | |
| D | Starting Points – attainment on entry to EYFS is substantially below developmental | - Nursery nurse in Reception |
| | milestones for many of our children along with those who join us throughout the year | - Speech and Language teacher support |
| | of which a high percentage are below expected entry level. | - RWI teacher and catch-up interventions |
| E | Attendance - last year's attendance figures showed us to be roughly in line with the | - Dedicated attendance monitoring and intervention |
| | national figures at 95.8%, with national at 95.84% | - Targeted parental support |

We have used the following data sources to identify our barriers to learning in our school:

- Analyse School Performance (ASP)
- School Performance Software eg: INSIGHT and SCHOLARPACK
- The Education Endowment Foundation (EEF)
- OFSTED Report
- Fisher Family Trust (FFT)

• Guidance and reports from Outside Agency Experts

Our Pupil Premium Grant will be allocated on needs analysis, reflecting these aims and conditions and those which identify priority classes, groups or individuals. Termly pupil progress meetings will ensure that provisions will meet pupil needs as we continue to monitor resources for their effectiveness and value for money.
