

Friday 17<sup>th</sup> September

Dear All,

### **No Electricity**

What an eventful day we had on Monday. When I arrived in school most of the building was in complete darkness. We tried our best to solve this situation but it was not an internal problem. We had hoped to open up later but the electricity was not checked and back on until it was too late. The problem we discovered lies in external cabling and tree roots!

For those children who had paid for an after school club on Monday they will have an additional session tagged on in December so they will not miss out.

### **Volunteer readers**

While we already have a small group of volunteers, who have been amazing, we would really welcome some more. Volunteering to read weekly with children does make a difference. Children make better progress and become more confident in their ability. So please, if you do have an hour or two a week that you can spare, get in contact with Mrs Wilson via the school office. 0208 699 4522 or email her on [nwilson17.209@lgflmail.org](mailto:nwilson17.209@lgflmail.org).

### **Dress Code for School**

Just a quick reminder that children should only wear stud earrings to school and no other jewellery. Watches may be worn. Nail varnish and other makeup is not allowed.

I would also like to add a plea from us all. Please label your child's clothes with their name. Already we have lost cardigans and jumpers and we would love to return them to their rightful owners. If you need a permanent marker to do this, we have one at the office, so please just ask us.

PE KIT – This should be dark shorts or track suit bottoms and a plain round neck white t-shirt. No slogans please.

Thank you for your cooperation.

### **COVID**

While we do have three confirmed cases of COVID, no one has had to isolate and it does not seem to be spreading within the school community. Please be

assured we are being vigilant and will continue to monitor this situation very carefully.

Best wishes

Christine Keen
